

Art. No. 41207 green / 41203 white Bench Helgoland

Scope of Delivery:

- 1 x Seat Panel
- 1 x Backrest
- 2 x Foot Part
- 1 x Reinforcement Bracket
- 1 x Srew Set
- 1 x Plastic Cap Set

Instructions for one Person

1. First lay out all components completely and clearly on a flat surface.
2. Place the seat panel in the mounts provided on the two foot parts. Ensure that both mounts are perfectly positioned and lie evenly,
3. Then use the supplied screws, washers and nuts to securely fasten the seat surface in the holes provided.
Tighten all connections firmly without damaging the material.
4. Close the screw holes with the plastic caps.
5. Repeat the same procedure for the backrest
6. Carefully turn the bench onto its side so that the underside is clearly visible.
7. Position the supplied reinforcement bracket between the mountings on the backrest and seat. Make sure that the drill holes on the reinforcement bracket line up with the corresponding holes on the seat and backrest.
8. Then apply consistent downward pressure at the point marked with the blue arrow. This ensures that the bracket is correctly positioned and that the screw holes line up exactly. While maintaining the pressure, fasten the bracket with the nuts and bolts as shown in the picture [pre-tensioning].
9. Bottom view of the bench
